PROFESSIONAL EXPERIENCE

IT Operations Manager | Systems & Digital Operations

Company name: DeliverWhere

Duration: March 2025 – March 2026

- Managed and monitored business IT systems, digital platforms, and operational software to support efficient daily operations and system availability.
- Provided technical support and troubleshooting for barcode scanners, computer hardware, tracking applications, and digital logistics systems.
- Administered electronic records, databases, and reporting processes, ensuring data accuracy, system integrity, and efficient information management.
- Coordinated system improvements, resolved application-related issues, and optimized digital workflows to improve productivity and minimize operational disruptions.
- Supported employees with software applications, system access, technical enquiries, and digital tools while maintaining operational documentation and reporting.

IT Support & Web Developer (Internship)

Company name: Scaled Inc.

Duration: Aug 2024 – Dec 2024

- Developed an internal company website, building responsive front-end pages and handling features end to end.
- Improved page performance by adding lazy loading for images and content, which cut initial load times.
- Added skeleton loaders so the interface felt faster and smoother while data was loading.
- Provided first- and second-line IT support, troubleshooting hardware, software and network issues.
- Administered Microsoft 365 (Teams, SharePoint, and Exchange Online) and supported Active Directory user management and DNS configuration.

IT Systems Support & Operations Coordinator

Company name: Brands Collection

Duration: Jan 2022 – Dec 2023

- Provided technical support for business computer systems, inventory management software, and point-of-sale (POS) applications.
- Diagnosed and troubleshot hardware, software, and system-related issues to minimize downtime and ensure operational efficiency.
- Managed digital inventory records, monitored stock movements, and maintained data accuracy across business systems.
- Assisted employees with system access, application usage, technical enquiries, and troubleshooting.
- Supported electronic order processing, system documentation, and workflow improvements to enhance business operations.

Print Production & IT Support Intern

Company name: Twins Model Computers & Prints

Duration: July 2019 – Dec 2019

- Designed and produced digital graphics, business cards, flyers, and other marketing materials using graphic design software.
- Operated and monitored digital printing and embroidery equipment to ensure efficient production.
- Assisted with troubleshooting basic printing errors, equipment malfunctions, and production-related technical issues.
- Prepared, formatted, and optimized digital files for printing and production.
- Managed digital design files and maintained organized electronic records of customer projects.

IT Support & Systems Assistant

Company name: Variety Coffee Book Shop

Duration: May 2018 – Jun 2019

- Provided first-line technical support for computer systems, point-of-sale (POS) terminals, and peripheral devices.
- Troubleshot basic hardware, software, printer, and network connectivity issues to minimize operational disruptions.
- Assisted with installing, configuring, and updating software applications used in daily business operations.
- Supported electronic payment systems and resolved basic transaction-related technical issues.
- Maintained digital inventory records and assisted with stock management using computerized systems.
